

2013

Dear Colleagues:

I am writing to encourage you to sign up for this year's exciting CAAHP AGM.

The AGM will be held in Calgary on May 29th and 30th, at the Southern Institute of Applied Technology (SAIT). This year's theme is 'Imagineering our Future: Big Picture Issues and Creative Strategies'. The agenda focuses on health, health care, and health education of the future, and one of our primary goals is together to imagine creative strategies for meeting the challenges that will be encountered along the way.

We're delighted to confirm our two keynote speakers. Dr. Alex Jadad and Dr. Joshua Tepper who are both visionary leaders in the field of health and health care. We're confident that they will guide our journey into the future with wisdom, compassion, and insight.

Our conference and AGM is structured to enable dialogue and networking among key players and participants. This year's format will allow for more active conversations and interactions, and includes an opportunity for a cross-country scan of the priority issues facing colleges today. This type of session has been requested repeatedly in your feedback and we are planning to make it a standing item of our meetings.

We've added a new feature to this year's AGM and are offering an optional one-day excursion to Banff National Park on May 28th. Please consider joining us for a day of breathtaking scenery as well as networking opportunities. We will require a separate registration form for the Banff excursion, along with a separate cheque for the associated expenses.

Please note that our AGM is scheduled so that you will have a travel day to attend the 2013 ACCC conference in Penticton from June 1-3 should you wish to do so.

We have endeavored to ensure that our agenda supports the work you do and allows you to express your thoughts and opinions on key decisions and issues.

We look forward to seeing you in Calgary!

Sincerely,

Jane Gamberg, PhD
President, CAAHP
